**Subject:** RE: EWA Sampling in Study Area (and beyond)

Thank you for the update, I am sure it will get a bit confusing for area residents but it should be something we can work through.

Sincerely,

Bradley E. Gentry, LPG

**Subject:** EWA Sampling in Study Area (and beyond)

Info from IDEM:

“FYI, EWA will have a consultant collecting indoor air data at Franklin residences starting next Monday and lasting 3 or 4 days. They will be collecting a combination of 24 hour Summas, some instantaneous real time data, and some longer duration real time data. We should anticipate media coverage from this event.”

So, I hope that this doesn't confuse things for you with the homeowners where you are sampling, but please feel free to pass along my contact info where it would help. I think I sent along the EWA Facebook page earlier with a description of where they want to sample, but if not and you need it, let me know.

Carolyn
